

STROKE RECOVERY CARE

We understand that recovering from a stroke may be a very challenging period of time for both the patient or residents and their support system. The interdisciplinary **Stroke Recovery Care** team at Senior Care Centers—comprised of physical, occupational and speech therapists, registered dietitians and registered nurses—works together to assist our patients and residents following a stroke, hemorrhaging stroke or transient ischemic attack. We want to help our residents relearn the skills they need for everyday living, so they may return to full, meaningful lives.

- ⌚ Reclaim livelihood through our intense occupational, physical and speech therapy programs designed to return patients to their highest possible level of functioning
- ⌚ Enjoy living in a home-like setting while under the supervision of our clinical team and compassionate caregivers
- ⌚ Medication management in coordination with licensed nurses and physician support
- ⌚ Personalized nutrition plans that fit the daily needs of patients
- ⌚ Assistance with any speech or swallowing challenges
- ⌚ Personalized treatment plan designed to prevent any further strokes
- ⌚ 24-hour skilled nursing and medical support services

The heart of
nursing care is here.
